EDUCATION

Lovely Professional University — Jalandhar, India
Bachelor of Technology (Computer Science & Engineering) — **July 2022 - May 2026**

SKILLS SUMMARY

- **Programming**: Python, Golang (Foundational), SQL, Object-Oriented Programming
- **Core CS**: Data Structures, Algorithms, Complexity Analysis
- **Backend**: REST APIs, API Design, Microservices Architecture, System Design, API Gateway
- **Cloud**: AWS (Foundational), Cloud-Native Architecture, Distributed Systems, SaaS Platforms, Cloud Services
- **Observability**: Logging, Metrics, Tracing, Monitoring
- **Databases**: MySQL, Redis, Query Optimization, Indexing
- **DevOps**: CI/CD, Production Deployment, Git, Docker
- **Engineering Practices**: Functional Design, Technical Design, SDLC, Testing
- **Collaboration**: Communication, Ownership, Problem Solving

WORK EXPERIENCE

DATA ENGINEER INTERN | flickDONE | LINK — **June 25- August 25**

- Optimized Python distributed pipelines processing 50,000+ daily records, improving reliability and throughput by 30%.
- Engineered SQL schema redesign and indexing strategies, reducing query latency and improving backend scalability.
- Developed Kafka streaming workflows supporting REST APIs, API Gateway integration, and distributed systems.
- Collaborated on functional and technical design, deploying AWS cloud production services aligned with SDLC.
- Implemented observability pipelines using logging, metrics, and tracing for API Gateway and cloud, reducing incidents 25%.

PROJECTS

Generative AI Product Recommender System | LINK — **June 25- August 2025**

- Designed scalable backend recommendation engine using Python, SQL, REST APIs, and distributed system architecture.
- Implemented A/B testing framework applying algorithms and data structures, improving recommendation accuracy by 22%.
- Integrated cloud deployment workflows with optimized vector retrieval pipelines, reducing latency by 18%.
- Architected modular system design enabling high-performance APIs, scalable microservices, and reliable production services.

Rails TODO App | LINK — **September 24- November 2024**

- Developed MVC-based backend services implementing REST APIs with optimized MySQL and Redis caching mechanisms.
- Applied data structures and query optimization strategies, reducing response latency and improving scalability.
- Designed functional specifications and deployed applications following clean architecture and engineering best practices.
- Ensured reliability through structured testing, monitoring, and deployment automation practices.

Morning Market Brief | LINK — **June 24- August 2024**

- Built AWS-based cloud ETL pipelines using Python, SQL, and API-driven workflows processing financial datasets efficiently.
- Designed scalable data architecture integrating distributed query engines and API-driven analytics workflows.
- Implemented observability pipelines capturing logs, metrics, and traces to enhance troubleshooting capabilities.
- Deployed production-ready REST services improving reporting reliability and system availability by 35%.

RESEARCH AND PUBLICATIONS

Multi-Stage Ensemble for Driver Fatigue Recognition | IEEE, 2025

- Developed PyTorch-based ensemble pipeline leveraging algorithms and optimized preprocessing for scalable training.
- Improved classification accuracy by 20% through structured experimentation and hyperparameter tuning workflows.
- Enhanced computational efficiency reducing inference time and supporting high-performance system requirements.

CERTIFICATES

Python, Data Science & ML (Cipherschools) | CERTIFICATE — **August 2024**

- Mastered Python programming, data structures, algorithms, and backend system development fundamentals.
- Applied scalable cloud-ready machine learning pipelines and experimentation workflows on real-world datasets.

Generative AI with LLMs (Coursera) | CERTIFICATE — **March 2024**

- Learned transformer architectures, distributed inference systems, and scalable API integration techniques.
- Built AI-enabled backend services integrating REST APIs and production-grade deployment strategies.
