Github: https://github.com/jyothir-369 Mobile: +91-6281073800

Skills

- **Programming Languages**: JavaScript (ES6+), TypeScript, Python, C++, SQL, HTML, CSS
- **Frameworks & Libraries**: React.js, Next.js, Node.js, Express.js, Tailwind CSS, Shadcn UI, GraphQL, REST API, WebSockets
- **Cloud & DevOps**: Android Studio, Google Colab, VS Code
- **Databases & Tools** : PostgreSQL, MongoDB, Firebase Firestore, Git, Visual Studio Code, Postman
- **Concepts & Methodologies** : Microservices Architecture, Cloud Integration, Authentication (SSO, SAML), Real-time Web Technologies, Payment Gateway Integration (Stripe, Razorpay)
- **Soft Skills** : Problem Solving, Team Collaboration, Adaptability, Time Management, Communication

Experience

- **flickDONE – Remote** June- August 2025
  Data Engineer Intern
  - Automated data collection and preprocessing pipelines, improving efficiency by 30%.
  - Developed visualization modules to evaluate Hindi–Braille translation performance.
  - Collaborated directly with the CEO on data automation and secure IP workflows.
  - **Tech stacks used**: Python, Pandas, FastAPI, Matplotlib

Projects

- **Generative AI Product Recommender System**: February- April 2025
  Built an AI-based recommender using FAISS and a FastAPI backend with LLM reranking.
  Developed a Streamlit frontend integrating REST endpoints and semantic search.
  Tech: Python, FastAPI, Streamlit, FAISS, LLM APIs

- **Full Stack Movie Recommendation System**: March- July 2024
  Developed a Created a complete web app combining content-based and collaborative filtering.
  Integrated React frontend with Flask backend via REST APIs.
  Tech: React.js, Flask, MongoDB, Python

- **Construction Industry Web Application** October- November 2024
  Built a dynamic site showcasing projects and resources for the construction sector.
  Implemented database-backed content management and a responsive UI.
  Tech: HTML, CSS, JavaScript, Node.js, MongoDB

- **Covid-19 Prediction using Machine Learning**: April- July 2024
  Built a Predicted new Covid-19 cases using population, mobility, and policy data.
  Built ML regression models to forecast spread and analyze public impact.
  Tech: Python, Scikit-learn, Pandas a responsive UI.

Certificates

- Python Programming Certification| Guvi June 2024
- Certificate of Internship in Social Initiatives| Sahara NGO July 2024
- Machine Learning & Data ScienceModels | Cipher Schools April 2024
- Dynamic Programming, Greedy Algorithm| Coursera February 2024
- Agile Project Management| Coursera February 2024

Achievements

- **Student Leadership**: Received recognition from the head of the student club for leadership and participation in extracurricular activities January 2018
- **Public Speaking**: Appointed as a motivational speaker, demonstrating strong communication and the ability to inspire others March 2018

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.44*** *2022-2026*
- **Navya Jyothi Junior College** Kallur, Telangana
  Intermediate; ***Percentage: 64%*** *2020-2022*
- **TS Model School** Tekulapalli, Telangana
  Matriculation; ***Percentage: 100%*** *2019-2020*
